

## Lighting installation and maintenance

## Transform II

Thank you for purchasing our products.  
Be sure to keep this instruction manual

### Please read this manual carefully before operation

This manual cannot provide all the details about the lighting fixtures or possible differences with the actual product, as well as all possible unexpected situations related to installation, use and maintenance. For more details or if special problems other than those listed in this manual occur, please contact our company.

#### ! WARNING

- This product should be installed by a full certified electrician in accordance with local building and electrical codes
- Due to risk of electric shock, ensure that the main power source and circuit breakers are switched before performing any installation or wiring procedures
- Failure to properly support the fixture during installation may cause damage or injury, for which the manufacturer is not responsible. Ensure the light bracket/eye bolt is securely mounted and will support the weight of the fixture

#### Precautions before wiring

Electrical parameter requirements  
Please be sure to connect to the mains power supply that complies with the requirements of the lamp parameter label

Grounding requirements:  
This lamp needs to be grounded. Please ground it reliably according to the standards of the country where it is located

- Product name: Transformer II
- Power: 60W/120W/180W/240W/360W/480W/600W
- Input Voltage: AC200~240V /120~277V /200~480V 50/60HZ
- Angle: 15°/25°/35°/40°/60°/75°/90°/120°/30°/70°/49°\*21°/136°\*78°/151°\*81°
- CCT: 5000K (2700~6500K)
- PF: >0.92
