LED FLOOD LIGHTING

300W,600W,900W

- Precise light control: Using precision prism plate technology, it can precisely control light, reduce glare and improve visibility.
- Professional protection performance: IP66 protection level, able to operate for a long time in high humidity and strong condensation environment
- Efficient heat dissipation: Adopting Aluminum Profile, combined with innovative design, it has excellent corrosion resistance and heat dissipation performance.
- Intelligent support to improve management efficiency: Can be combined with an intelligent control system to provide zone dimming function, Adapt to multiple scene modes (such as training, competition or cleaning mode) to further optimize energy management.
- Moisture and corrosion resistance: High-quality anti-corrosion aluminum profiles are used to cope with high humidity environments and maintain stable lighting effects.

Precise light control:	Professional protection performance:	Efficient heat dissipation:
Using precision prism plate technology, it can precisely control light, reduce glare and improve visibility.	IP66 protection level, able to operate for a long time in high humidity and strong condensation environment	Adopting Aluminum Profile, combined with innovative design, it has excellent corrosion resistance and heat dissipation performance.

LED FLOOD LIGHTING

SPECIFICATIONS

Expected Life | Over 50,000 hrs.

Rating | IP66

Color Rendering Index (CRI) | >70

Operating Temp | -30°C – +45°C

Relative Humidity | 0-90% RH

Power Factor | ≥95%

Input Voltage | 120-277/277-480 VAC

Input Frequency | 50/60 Hz

LED Chips | osram

Driver | 0/1-10V Optional

LED Efficiency

- 3000K, 120 lm/w

- 4000K, 130 lm/w

- 5000K, 130 lm/w

- 5700K, 130 lm/w

WARRANTIES

SEE WEBSITE FOR DETAILS

5-Year

MATERIALS

Housing | Aluminum Profile
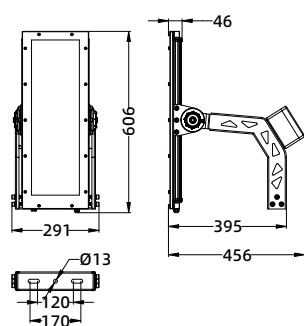

Gasketing | Neoprene Rubber

Hardware | 18-8 Stainless Steel

**Finish |** Protective UV Stabilized Powder Coated

4000 Hour Salt Spray Tested to ASTM B117

Lens | PC/ADC12

PRODUCT SIZE

300W

600W

900W
